A true kitchen centerpiece that is sure to demand attention. Featuring the same cook top options as the ILVE Quadra range, these exceptional cookers will compliment any kitchen and its cook.

While a highlight of the Majestic range is its 700mm depth, the standard functions you expect from ILVE, including the electric rotisserie, precision thermostatic control, concealed grill element, programmable timer and turbo wave cooking feature, not to mention the digital food monitor - have not been forgotten.

The unique style of the Majestic Freestanding Ovens stands out above the rest and to enhance this, ILVE offers the ability to create a customized and individual look. Choose between the traditional (Majestic) or contemporary (Majestic Techno) style; pick one of six colours with brass, chrome or bronze fittings; and select from five available sizes (70cm, 90cm, 100cm, 120cm and 150cm). Also available are matching range hoods with infrared heat lamps (AM series).

Living up to expectations, ILVE is bringing incomparable design, choice and functionality to the everyday Australian kitchen.
