MODERN STYLE PAIRED WITH PROFESSIONAL FUNCTIONALITY

ILVE’s Professional Plus series is a cooking suite that it is, in essence, a bespoke custom made product. Colours, finishes, hobs and ovens can be combined to find the perfect balance between functionality, power, style, aesthetics and lifestyle in the kitchen.

For over 50 years, we’ve specialised in cooking appliances. Our products are directly inspired by professional kitchens. We also take inspiration from the materials used in professional kitchens; such as AISI 304 stainless steel, cast iron, brass and copper - choices that improve the quality and durability of our products.

A highlight of the NEW range is the Steam Valve - offering the possibility of choosing between dry or humid cooking. That way you can get a crispy bread or a tender and juicy roast all from the same oven.

The burners, still made from brass, guarantee excellent durability and the non-stick nano technological coating provides a lotus effect for easy cleaning.

Standard functions you expect from ILVE, including the electric rotisserie, precision thermostatic control, concealed grill element, programmable timer and turbo wave cooking feature are not left out.

Also available are matching range hoods (X400 series). ILVE is continually bringing incomparable design, choice and functionality to the Australian kitchen.
DISCLAIMER
Eurolinx PTY LTD, trading as ILVE Appliances, is continually seeking ways to improve the design specifications, aesthetics and production techniques of its products. As a result alterations to our products and designs take place continually. Whilst every effort is made to produce information and literature that is up to date, this brochure should not be regarded as an infallible guide to the current specifications, nor does it constitute an offer for the sale of any particular product. Product dimensions indicated in our literature is indicative only. Actual product only should be used to define dimension cutouts. Distributors, and retailers are not agents of ILVE Appliances and are not authorized to bind ILVE Appliances by any express or implied undertaking or representation.

ACCURATE ELECTRONIC TEMPERATURE CONTROL

Minimal temperature fluctuation for optimal cooking; temperature spikes, uniform cooking, energy saving. Temperature is adjustable from 30° to 300° for perfect leavening.

Set temperature

Standard oven temperature management

ILVE oven temperature with electronic control

OVEN CAVITY

Safe for children, perfectly insulated thanks to the three glass panes, easy to clean thanks to the new structure of the door. ‘Easy Clean’ enamelled cavities & full Glass door for an easy cleaning

HOB COMPONENTS

Hob structure in AISI 304 steel with a thickness of 10/10. Cast iron pan supports and brass burner rings that are highly resistant to fire with non-stick nano technological coating

A WIDE RANGE OF COLOURS AND FINISHES

Four standard colours that can be integrated with a custom RAL colour code, on request.

STEAM RELEASE VALVE

Our new function that removes the cooking steam from the oven cavity, offering the versatility of dry or humid cooking. This will give you crispy vegetables or a tender and juicy roast.

HAND ASSEMBLED

The cooker is built around a robust structural cage clad with easily removable trim panels for easy cleaning or repair.

BRASS BURNER RING & DUAL WOK

Brass is a noble material that guarantees excellent durability and the non-stick nano technological coating facilitates easy cleaning. Perfect gas supply with total output of all the heating power

QUICK START & DEFROST

Fast oven preheating function to quickly reach the desired temperature. With a temperature of 30/40° it also perfectly defrosts your frozen meats.
