ILVE’s Professional Plus series is a cooking suite that it is, in essence, a bespoke custom made product. Colours, finishes, hobs and ovens can be combined to find the perfect balance between functionality, power, style, aesthetics and lifestyle in the kitchen.

For over 50 years, we’ve specialised in cooking appliances. Our products are directly inspired by professional kitchens. We also take inspiration from the materials used in professional kitchens; such as AISI 304 stainless steel, cast iron, brass and copper - choices that improve the quality and durability of our products.

A highlight of the NEW range is the Steam Valve - offering the possibility of choosing between dry or humid cooking. That way you can get a crispy bread or a tender and juicy roast all from the same oven.

The burners, still made from brass, guarantee excellent durability and the non-stick nano technological coating provides a lotus effect for easy cleaning.

Standard functions you expect from ILVE, including the electric rotisserie, precision thermostatic control, concealed grill element, programmable timer and turbo wave cooking feature are not left out.

Also available are matching range hoods (AG series). ILVE is continually bringing incomparable design, choice and functionality to the Australian kitchen.
