ILVE ACCESSORIES ONLINE SHOP

For a wide range of coffee machines, pods, and other ILVE accessories at the click of a button shop.ilve.com.au
DEAR CUSTOMER,
We thank you and congratulate you on your choice. This new carefully designed product, manufactured with the highest quality materials, has been carefully tested to satisfy all your cooking demands. We would therefore request you to read and follow these easy instructions which will allow you to obtain excellent results right from the start.

ILVE

IMPORTANT: The oven’s data plate is accessible even with the oven fully installed. The plate is visible simply by opening the door. Always quote the details from it to identify the appliance when ordering spare parts. The appliance becomes very hot during use. Take great care not to touch the heating elements inside the oven.

THIS APPLIANCE IS CONCEIVED FOR DOMESTIC USE ONLY. THE MANUFACTURER SHALL NOT IN ANY WAY BE HELD RESPONSIBLE FOR WHATEVER INJURIES OR DAMAGES ARE CAUSED BY INCORRECT INSTALLATION OR BY UNSUITABLE, WRONG OR ABSURD USE.

THIS APPLIANCE IS NOT INTENDED FOR USE BY PERSONS (INCLUDING CHILDREN OVER THE AGE OF 8) WITH REDUCED PHYSICAL, SENSORY OR MENTAL CAPABILITIES, OR LACK OF EXPERIENCE AND KNOWLEDGE, UNLESS THEY HAVE BEEN GIVEN SUPERVISION OR INSTRUCTION CONCERNING USE OF THE APPLIANCE BY A PERSON RESPONSIBLE FOR THEIR SAFETY. CHILDREN SHOULD BE SUPERVISED TO ENSURE THAT THEY DO NOT PLAY WITH THE APPLIANCE.

DO NOT PLACE TIN FOIL, PANS OR SIMILAR IN CONTACT WITH THE INNER BASE OF THE OVEN TO COOK. THE HEATING ACTION OF THE LOWER RESISTANCE CAUSES THE LOWER PART OF THE OVEN TO OVERHEAT, LEADING TO DAMAGE AND EVEN SERIOUS CONSEQUENCES (FIRE RISK) ALSO TO THE UNIT IN WHICH THE OVEN IS IN-STALLED.
- KEEP CHILDREN UNDER AGE 8 AWAY, UNLESS CONSTANTLY SUPERVISED.
- CHILDREN MAY NOT PERFORM CLEANING AND MAINTENANCE UNSUPERVISED.
- DO NOT USE HARSH ABRASIVE CLEANERS OR SHARP METAL SCRAPERS TO CLEAN THE OVEN DOOR GLASS SINCE THEY CAN SCRATCH THE SURFACE, WHICH MAY RESULT IN SHATTERING OF THE GLASS.

## RESPECT FOR THE ENVIRONMENT

The documentation provided with this oven has been printed on chlorine free bleached paper or re-cycled paper to show respect for the environment. The packaging has also been designed to avoid environmental impact. Packaging material is ecological and can be re-used or recycled. By recycling the packaging, you will help save raw materials as well as reducing the bulk of domestic and industrial waste.
THE FIRST TIME YOU USE THE OVEN
Clean the oven thoroughly with soapy water and rinse well. To remove the lateral frames from smooth walled ovens, proceed as shown in the figure. Operate the oven for about 30 minutes at maximum temperature to burn off all traces of grease which might otherwise create unpleasant smells when cooking.

Important:
As a safety precaution, before cleaning the oven, always disconnect the plug from the power socket or the power cable from the oven. Do not use acid or alkaline substances to clean the oven (lemon juice, vinegar, salt, tomatoes etc.). Do not use chlorine based products, acids or abrasive products to clean the painted surfaces of the oven. DO NOT USE STEAM CLEANERS TO CLEAN THE OVEN.

SELF-CLEANING CATALYTIC PANELS
Our smooth walled ovens can be fitted with self-cleaning panels to cover the inside walls. These special panels are simply hooked on to the walls before the side frames are fitted. They are coated in a special, micro porous catalytic enamel which oxidises and gradually vaporises splashes of grease and oil at cooking temperatures above 200°C. If the oven is not clean after cooking fatty foods, operate the empty oven for 60 minutes (max.) at maximum temperature. Never wash or clean self-cleaning panels with abrasive, acid, or alkaline products.
CONTROL PANEL FUNCTIONS

FUNCTION SYMBOLS ON THE SELECTOR

- Oven light (stays on while oven is in use).

- Bottom heating element. Thermostat setting from 50°C to MAX.

- Top and bottom heating elements. Thermostat setting from 50°C to MAX.

- Top and bottom heating elements with fan. Thermostat setting from 50°C to MAX.

- Circular heating element with fan. Thermostat setting from 50°C to MAX.

- Fan for defrosting. Thermostat setting at 0°C.

- Bottom heating element with fan. Thermostat setting from 50°C to MAX.

- Double top heating element with fan (large area grill). Thermostat setting from 50°C to 200°C.

- Double top heating element (large area grill). Thermostat setting from 50°C to 200°C.

- Top heating element (small, low power grill). Thermostat setting from 50°C to 200°C.

- Bottom heating element + Circular heating element with fan. Thermostat setting from 50°C to MAX.
INSTRUCTIONS FOR USE

CONVENTIONAL COOKING

Conventional cooking use stop and bottom heat to cook a single dish. Place the food in the oven only once cooking temperature has been reached, i.e. when the heating indicator goes out. If you want to increase top or bottom temperature towards the end of the cooking cycle, set the temperature control to the right position. It is advisable to open the oven door as little as possible during cooking.

FAN COOKING

For this type of cooking a fan positioned at the back allows the circulation of hot air inside the oven, creating uniform heat. In this way cooking is more rapid than conventional cooking. It is a suitable method for cooking dishes on more than one shelf, especially when the food is of different types (fish, meat etc.)

DEFROSTING

By selecting one of the fan cooking functions and setting the thermostat to zero, the fan allows cold air to circulate inside the oven. In this way frozen food can be rapidly defrosted.

It is not essential to pre-heat the oven, but you are advised to do so when cooking pastries.
**GRILL COOKING**

Use the grill to grill or brown foods. Some ovens may be equipped with an electric motor, spit and skewers for turning on the spit. Place the shelf with the food to be cooked in the 1st or 2nd position from the top. Pre-heat the oven for 5 minutes. Turn the thermostat to a temperature between 50° and 200°.

**COOLING FAN**

The fan is positioned on the upper part of the oven and create a circle of cooling air on the inside of the furniture and through the door of the oven. It is turned on when the temperature of the outer shell of the oven reaches 60°C. By switching on the oven with the thermostat at 200°C the fan starts working after approx. 10 min. It is turned off when the temperature of the outer shell of the oven descends under 60°C. By switching off the oven with the thermostat at 200°C the fan stops working after approx. 30 min.

**THERMOSTAT**

Use the thermostat to set the cooking temperature you need. The thermostat can be adjusted from 50° to 250° C.

**ALARM TIMER**

You can set this timer to sound a buzzer after 0 to 60 minutes of cooking. First turn the knob fully clockwise, then turn it back to the desired alarm time.

**COOKING TIMER**

First, turn the cooking selector to the required cooking function, and the thermostat to the desired cooking temperature. Then, to set end of cooking time, turn the cooking timer to the right and to the desired time. First turn the knob fully clockwise, then turn it back to the desired alarm time. A buzzer sounds at the end of the timed cooking period, and the oven switches itself off. To set only the start of cooking, turn the cooking timer to the left to the symbol.
TIMER TOUCH CONTROL

Setting the clock

“Auto” and “0:00” will start flashing when the unit is switched on for the first time. To set the clock, press the central button for about 3 seconds. When 🕒 appears, press “+” or “-” to set the correct time. Wait until a beep tells you that the clock has been set (figure 1). To set the time at a later stage, press “+” and “-“ together for 3 seconds and then adjust the clock as described above.

Minute counter

As this minute counter does not control the oven, when it finishes counting the oven will continue to work. To set, press the central button for 3 seconds until 🕒 appears (figure 2). Press “+” and “-“ to set the required time. To set the minute counter at a later stage, press the central button for 3 seconds and adjust as described above. The minute counter beeps when it finishes counting. To disable it, press any button.

Cooking time

This is a semi-automatic cooking function. It can be used to set cooking times. Press the central button for 3 seconds. Then press it again until “dur” appears (figure 3). Press “+” and “-“ to set the required cooking time.
End of cooking time

The end of cooking time can also be set.
Press the central button for 3 seconds. Press the central button twice consecutively and wait for “End” to appear (figure 4). Press “+” and “-” to set the required end of cooking time.
The oven will work in the set mode and at the set temperature until the end of cooking time.

Programming automatic cooking

Cooking function with set times.
Press the central button for 3 seconds. Then press it again until “dur” appears. Press “+” and “-” to set the required cooking time. Wait a few seconds for the setting to be memorised.
Press the central button for 3 seconds. Press it another two times and wait for “End” to appear (figure 4). Press “+” and “-” to set the required end of cooking time.

E.g.:
Current time: 12.30
Cooking time: 10 minutes
End of cooking time: 14.00
The oven will start cooking at 13.50 (14.00 less 00.10) at the set temperature and in the set mode and will stop at 14.00

The oven will beep when it stops cooking. To disable it, press any button.

Adjusting beep volume

To adjust beep volume, press “+” and “-” together. Then press the central button and wait for “ton1” (high volume) to flash. Press “-” to select “ton2” (medium volume) or “ton3” (low volume).
Press the central button to set the selected volume.
REPLACING THE OVEN LIGHT IMPORTANT:

The oven light must have these precise features:

a) it must be able to resist high temperatures (up to 300°C)
b) power supply: see V/Hz indicated on data plate.
c) power 25W.
d) E 14 connection.

Before proceeding, disconnect the appliance from the power line to avoid the possibility of electric shock.

- to prevent damage, place a tea cloth in the oven-unscrew the glass cover of the light
- unscrew the old light bulb and replace it with the new one
- put back the glass cover and remove the tea cloth
- connect the appliance to the main electricity supply

REMOVING THE OVEN DOOR

The oven door can be removed quickly and easily. To do so, proceed as follows:

- Open the door fully.-
- Lift the two levers shown in fig.
- Close the door as far as the first stop (caused by the raised levers).
- Lift the door upwards and outwards to remove it from its mountings. To replace fit the door, fit the hinges in their mountings and lower the two levers.

**INSTALLATION INSTRUCTIONS**

Flush fitting
The oven can be installed under a work top or in a cooking column. Figure shows the installation dimensions. Make sure that surrounding materials are heat resistant. Align the oven centrally with respect to the sidewalls of the units surrounding it and fix it in place with the screws and Allen screws provided.

**ELECTRICAL CONNECTIONS**
Before connecting the oven to the mains power supply, make sure that:
- The supply voltage corresponds to the specifications on the data plate on the front of the oven.
- The mains supply has an efficient earth (ground) connection complying with all applicable laws and regulations. Correct earthing (grounding) is a legal requirement. The power cable should never reach a temperature 50°C above ambient temperature at any point along its length. If a fixed appliance is not provided with a power cable and plug, or some other device permitting it to be disconnected from the mains electricity supply, with a gap between the contacts big enough to guarantee class over voltage protection, then such a device must be fitted to the power supply in compliance with the regulations governing electrical installations. The socket or switch must be easily reachable with the oven fully installed.

Eurolinx Pty Limited A.B.N. 50 001 473 347 trading as ILVE (“ILVE”)
Office:
48-50 Moore Street, Leichhardt N.S.W 2040
Post:
Locked Bag 3000, Annandale, N.S.W 2038
P: 1300 856 411

WARRANTY REGISTRATION
Your ongoing satisfaction with your ILVE product is important to us. We ask that you complete the enclosed Warranty Registration Card and return it to us so that we have a record of the ILVE products you purchased. Alternatively you can register on line (see registration card for details)

PRIVACY
ILVE respects your privacy and is committed to handling your personal information in accordance with the National Privacy Principles and the Privacy Act 1988 (Cth). A copy of the ILVE Privacy Policy is available at www.ilve.com.au. ILVE will not disclose any personal information set out in the Warranty Registration Card (“Personal Information”) without your consent unless required by:

1. law;
2. any ILVE related company;
3. any service provider which provide services to ILVE or assist ILVE in providing services (including repair and warranty services) to customers. Our purpose in collecting the Personal Information is to keep a record of the ILVE product purchased by you, in order to provide a better warranty service to you in the unlikely event that there is a problem with your ILVE product. ILVE may contact you at any one or more of the address, email address or telephone numbers set out in the Warranty Registration Card. Please contact ILVE on 1300 694 583 should you not wish to be contacted by ILVE.

WARRANTY
1. Warranty
ILVE warrants that each ILVE product will remain, for a period of twenty four (24) months computed from the date of purchase of the ILVE product, free from defects arising in the manufacture of the ILVE product (“Warranty”). Except for consumer guarantees set out in the Competition and Consumer Act 2010 (Cth) (“Act”), ILVE does not make any further warranties or representations in relation to ILVE products.

2. What is not Covered by the Warranty.
The Warranty does not apply if an ILVE product is defective by a factor other than a defect arising in the manufacture of the ILVE product, including but not limited to:

(a) damage through misuse (including failure to maintain, service or use with proper care), neglect, accident or ordinary wear and tear (including deterioration of parts and accessories and glass breakage);
(b) use for purpose for which the ILVE product was not sold or designed;
(c) use or installation which is not in accordance with any specified instructions for use or installation;
(d) use or operation after a defect has occurred or been discovered;
(e) damage through freight, transportation or handling in transit (other than when ILVE is responsible);
(f) damage through exposure to chemicals, dusts, residues, excessive voltage, heat, atmospheric conditions or other forces or environmental factors outside the control or ILVE;
(g) repair, modification or tampering by the purchaser or any person other than ILVE, an employee of ILVE or an authorised ILVE service contractor;
(h) use of parts, components or accessories which have not been supplied or specifically approved by ILVE.
(i) damage to surface coatings caused by cleaning or maintenance using products not recommended in the ILVE product handbook provided to the purchaser upon purchase of the ILVE product;
(j) damage to the base of an electric oven due to items having been placed on the base of the oven cavity or covering the base, such as aluminium foil (this impedes the transfer of heat from the element to the oven cavity and can result in irreparable damage); or
(k) damages, dents or other cosmetic imperfections not affecting the performance of the ILVE in respect of an ILVE product purchased as a “factory second” or from display.

The Warranty does not extend to light globes used in ILVE products.

Customers must retain proof of purchase in order to be eligible to make a warranty claim in respect of an ILVE product.

6. Claiming under the Warranty
Customers will bear the cost of claiming under this Warranty unless ILVE determines the expenses are reasonable, in which case the customer must claim those expenses by providing written evidence of each expense to ILVE at the address on the Warranty Registration Card.
3. Domestic Use
Each ILVE product is made for domestic use. This Warranty may not extend to ILVE products used for commercial purposes; under those circumstances the warranty period is limited to 3 months.

4. Time for Claim under the Warranty
You must make any claim under this Warranty within twenty eight (28) days after the occurrence of an event which gives rise to a claim pursuant to the Warranty, by booking a service call on the telephone number below.

5. Proof of Purchase
Customers must retain proof of purchase in order to be eligible to make a warranty claim in respect of an ILVE product.

6. Claiming under the Warranty
Customers will bear the cost of claiming under this Warranty unless ILVE determines the expenses are reasonable, in which case the customer must claim those expenses by providing written evidence of each expense to ILVE at the address on the Warranty Registration Card.

7. Statutory Rights
(a) These terms and conditions do not affect your statutory rights.
(b) The limitations on the Warranty set out in this document do not exclude or limit the application of the consumer guarantees set out in the Act or any other equivalent or corresponding legislation in the relevant jurisdiction where to do so would:
(i) contravene the law of the relevant jurisdiction;
(ii) cause any part of the Warranty to be void.
(c) ILVE excludes indirect or consequential loss of any kind (including, without limitation, loss of use of the ILVE product) and (other than expressly provided for in these terms and conditions) subject to all terms, conditions and warranties implied by custom, the general law, the Act or other statute.

IMPORTANT!
All warranty service calls must be booked via the customer care department. The team can be contacted on 1 300 85 64 11 option 1 or customercare@eurolinx.com.au
Service is delivered through a network of Service Agents. If the Appliance is located outside our normal Service Area of our agents you, the Customer will need to bear the cost of travel outside that area.
If you are unable to provide proof of purchase, the fault is not covered under warranty or the product is found to be working to specification you may be required to bear the full cost of the service visit
