Remote Motor Canopy Range hood
XR400-90

Incorporating all the features as the X400 Hood, the XR400-90 Remote motor hood reduces the noise in the kitchen by up to 70%. At ILVE, we are dedicated to creating quiet range hoods with maximum performance via the use of a remote extraction system, in which motor is located separate to the hood body (i.e. in the ceiling). By doing this, the noise is reduced rapidly. Both the installation methods of the motor; in the roof (Silent Split Exterior) or in a false ceiling (Silent Split In-line) for example is designed for ease of installation based on your individual needs. In-built LED Lights produce a natural brightness, illuminating your cooking area while the streamlined electronic control panel ensures whisper quiet air extraction is at your fingertips. Either as a visual focal point or discreetly integrated, it is easy to see that ILVE Rangehood’s are built to extract!
Remote Motor Canopy Range hood
XR400-90

Model XR400
Remote Motor Canopy Range hood

- Designed and purpose built for ILVE appliances
  Recommended for Tepanyaki models or
  when very high air extraction is required
- Ultra sleek design with stainless steel moulded front facia
- Remote Motor: the fan motor can be installed remotely from
  the body and cooking area (see copy on previous page)
- Suitable for all ILVE cooktops 80, 90 & 100cm
- Twin turbine high velocity fan, optional in-line motor is
  available to assist air flow
- **ECO-booster** Feature:
  Our new and improved range hoods incorporate a 4th speed
  that is used as a “ECO-booster”. When active, the range
  hood will operate at a higher speed (4) for 10 minutes, and
  then the speed will automatically turn down to speed 3.
- Programmable 5, 10, 15, 20 minute auto fan shut-down
- Dishwasher Stainless steel safe filters
- Electronic variable speed control
- Adjustable flue to ceiling your preferred height
- Motor cut out fire protection
- LED lighting
- Filter cleaning reminder light
- Max. Air flow (m3/h): 920 net or 1200 gross*
- Noise (dB): high 62
- AS304 stainless steel construction
- Sizes: 90cm
- Colour: Stainless Steel
- Ducting size: 150mm**

*Range Hood extraction rate m3/h reading is
measured at:
1m duct up, 1 x 90°C bend & 1m vertical duct

**Using the conversion back to 125mm may
effect performance
