600SPYTCBV in Black Glass Finish

ILVE's new 600 Series large cavity ovens are the culmination of 2 years of research and development to bring Australian homes a oven that has the technology, sophistication and appearance that embodies the ILVE brand whilst having many functional advantages over its competitors.

Technology is at the forefront offering a new feature we call 'CHEF-assist'. A colour, TFT touch screen with smart control panel available in 11 different languages, over 35 preset recipe modes and upto 100 saved 'personalised' recipes enable you to cook any dish for the entire family, perfectly. To make cooking even more enjoyable the latest range also offers automatic cooking times, weight presets and has the brilliant function of allowing you to change the thermostat from Degrees Celsius to Fahrenheit, making recipe temperature conversions and control easier than ever before.

The new size of the cooking cavity provides more cooking space and maximises the full internal size of the oven. Our new ULTRA-Clean light grey, nickel-free enamel interior reduces the toxicity of materials in contact with foods and is easy to clean. Standard in the oven are Telescopic racks that are totally removable making the use of the ovens baking trays and general cooking in the oven easy and effortless. The Full size inner door glass provides a panoramic view from the outside of the oven door of what is inside the oven, its full width also enables easy cleaning with no crevices for food scraps and residue to get trapped.

### Available Colours
